

Crystal Master Raym

Through over twenty-five years experience as a shamanic practitioner, therapist and teacher of teachers, along with guidance from his own spiritual team, Raym has developed his Crystal Dreaming technique. The process is proven, practical and easy to apply. The results are immediate and frequently life transforming. Crystal Dreaming enables your clients to access the Superconscious experiencing first hand their own Divine Presence and absolute bliss.

Raym is a Shaman, alternative therapist, columnist and author of Spirit Guide, Alchemy of Crystals and Spirit World, a diary of an urban shaman.

Raym will give you a clear understanding of the spirit world, a realm that is often misunderstood and in contemporary Western culture rarely explained thoroughly and clearly. We will look at the area that you will be exploring with your clients and the energies and beings you are likely to encounter there, including inter-dimensionals and extraterrestrials.

On completion of this course you will be ready, after further practice and after you have acquired your own crystals, to facilitate sessions for others.

What it can achieve

Through Crystal Dreaming your client may travel into the depths of their being and there find true happiness and peace. Once experienced their life will never be the same again, all they need is the courage to step into the unknown and discover the truth and beauty of who they really are. Crystal Dreaming allows you to guide this exploration of the inner plane, with a heightened awareness of reality, in a safe and nurturing environment.

The focus of Crystal Dreaming is to empower clients to diagnose and treat themselves of any imbalance on any level. Clients will implement positive life changes from knowledge they have personally received from other dimensional realities. You will learn how to assist in releasing any blockages or limitations, cellular memories, past or present life trauma, negative energies or entities or any aspect of your clients being that requires more love and understanding. You will assist your client's empowerment with love and respect for every aspect of their being.

Crystal Dreaming opens your clients awareness inward to their source of power. There is nothing to fear on this journey for ultimately there is only truth and radiant beauty to be found there. In this course you will learn how to facilitate this transformational journey for others safely, with ease and grace.

Crystal Dreaming® ***How it works***

The laying on of stones is an ancient Healing Art practiced by the Mayans, Ancient Egyptians and Native Americans. New Age philosophy acknowledges the truth of the inter-connectedness of all things, the reality of the spirit world and the existence of beings in other realities. It perceives the illusion of linear time and space and the truth of our own infinite beings.

Crystal quartz is silicon dioxide, the most common mineral compound on Earth, also found throughout our bodies, hence the resonance between our own molecular structure and crystals. When crystals are placed on the body the healing process is stimulated from within.

By placing crystals around the crown creating a unique mandala, it is possible to focus Divine Energy, triggering an opening of the pineal gland and the shift in consciousness of your client into an expanded state of consciousness. After clearing negative energy, self diagnosis and healing, it is possible for your client to experience a profound state of oneness and bliss, which is frequently life changing.

These advanced techniques enable you to guide your client to a fully conscious reconnection with the Superconscious or never ending now in which our Higher Selves exist in a state of constant bliss. You may facilitate recollection of ancient past life abilities, clear Karma, open clairvoyance, clairesentience and clairaudience and other abilities for your client, as a practitioner, during your sessions.

Crystal Dreaming will bring clarity of purpose to your client by activating their Divine mission, blueprint or life plan. Crystal Dreaming frequently leads to a full embodiment of past life skills and a blissful reconnection with the Divine.

It is possible with practice, to achieve this in one session.

Crystal Dreaming® ***Facilitating an expanded state***

Using a unique and sacred mandala of crystals placed around the crown, Raym will teach you how to facilitate an expanded state of consciousness for others. They may experience a profound journey into the superconscious, oneness and bliss, where emotional, physical and spiritual healing may occur, instantly.

You will learn how to release all blocks en route to this state, including the release of; cellular memory, emotional blockages, past or present life trauma, negative energy, entities, earthbound spirits and interference from any other source.

After releasing these blockages, your client may meet their higher self, spirit guides, spiritual teachers, Ascended Masters, Angels and other highly evolved beings of light who love them unconditionally.

These techniques open all channels to the spirit world and beyond, facilitating inter-dimensional travel anywhere in time and space, whilst remaining fully conscious in this reality.

You will be working from Raym's book *Alchemy of Crystals*, which is included in the course fee. You will give and receive a Crystal Dreaming session during this three day course, which includes our one day Crystal Awareness course.

This course will be presented by Raym and lasts for two days, with homework on Saturday night. **Participants must have completed our Crystal Awareness course** and have an excellent understanding of Crystal Dreaming crystals, their properties and how they affect our energy.

Please bring a vegetarian lunch, morning and afternoon tea will be provided.
